

## **Career Profiles**

Please answer as many of these questions as possible or is appropriate. The answers will be edited into the career profile. (If instead you are looking to update your existing profile, then either answer the questions below, or re edit the document which you wrote originally.)

We would also like to include a photograph of you with the profile. If you could attach a high quality photograph of yourself which you would be happy to go on the web, that would be very much appreciated.

The IMA may use your profile for [www.mathscareers.org.uk](http://www.mathscareers.org.uk) or for other STEM promotion purposes. (STEM stands for Science, Technology, Engineering and Maths.)

**Once your profile is complete please send it alongside your photograph to [mathscareers@ima.org.uk](mailto:mathscareers@ima.org.uk) (Please put Career Profile as your subject heading.)**

You will be contacted with the final profile before it is uploaded. Many thanks for taking the time to create a profile.

*When answering the questions, please try to remember that your profile is aimed at young people, usually aged 14-19, so there is no need to provide really long or complicated answers.*

**Name:**

**Job Title:**

**Organisation:**

**Number of years in current position:**

**Qualifications:**

**Briefly describe the organisation you work for.**

**Explain what you do on an average day at work.**
