

MYNNWCH WELD Y FATHEMATEG MEWN AWYROFOD

more maths grads
multiplying opportunities

Gellir dadlau bod awyrofod modern wedi dechrau gyda hediad pŵer cyntaf y brodyr Wright yn Kitty Hawk yn 1903. Gyda Mathemateg wrth wraidd popeth rydyn ni'n ei wneud, gadewch i beirianeg awyrofod fynd â chi i uchafbwynt newydd! O ddadansoddi a datblygu llwybrau hedfan i ddylunio llongau gofod ac aerodynameg – mae'r cyfan wedi'i seilio ar y Fathemateg sydd gennych.

Am fwy o wybodaeth am brosiect More Maths Grads neu am ŷmholiadau cŷffredinol, ŷmwelwch â: www.moremathsgrads.org.uk a www.mathscareers.org.uk

SEE THE MATHS IN AEROSPACE

more maths grads

Modern aerospace arguably began with the Wright brothers' first powered flight at Kitty Hawk in 1903.

With maths at the heart of everything we do, let aerospace engineering take you away to a new high!

From analysing and developing flight paths to design of spacecraft and aerodynamics – it all adds up to the maths you can deliver.
