O byramidiau ysblenydd yr Aifft hynafol i ryfeddodau'r oes fodern a welwn o'n cwmpas – mae'r cynlluniau sy'n gwneud argraff arnon ni'n defnyddio cryn dipyn o Fathemateg. O siapiau a gofod sy'n defnyddio modelu a delweddu cyfrifiadurol i gyfrifiadau llif gwynt ac aerdymheru ar gyfer adeiladau cynaliadwy a charbon niwtral!

SEE THE MATHS IN ARCHITECTURE

more maths grads
multiplying opportunities

From the spectacular pyramids of ancient Egypt to the modern day marvels we see around us – the designs we are impressed by use an impressive amount of maths, from shapes and space using computer modelling and imagery, through to calculations of wind flow and air conditioning for sustainable and carbon neutral buildings!
